McFarland Then & Now

McFarland, like all communities, has changed over the years. Sometimes the changes have been gradual and sometimes the changes have been sudden.

This exhibit allows us to take a moment to view how things have changed in our village by comparing images from various times in McFarland's past to images taken in 2005, quite often from the very same location.

The comparisons will elicit memories of places, events and people from our community's past. In some cases, the comparisons will be surprising, revealing long forgotten or little-known facts about our village. Perhaps the comparisons will bring about quiet reflection as we think of comforting times and places from long ago. But, hopefully, the comparisons will reveal a sense of home, a place where we belong, no matter if McFarland has been your hometown most of your life or if you are new to the community.

The "McFarland Then & Now" exhibit is being displayed simultaneously in five locations. To view all 50 photo comparisons, you will need to visit the E.D. Locke Public Library, McFarland Municipal Building, McFarland State Bank, Culver's and McFarland High School.
